EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: Please cancel claims 36-45.

2. Applicant's election with traverse of claims 1-35 and 46-50 in the reply filed on 11/20/06 is acknowledged. The traversal is on the ground(s) that the independent claim 36 requires a compensated RFID tag having a compensating element thereon. This is not found persuasive because the storage area with associated interrogating antenna is nowhere to be found in the remaining claims, thereby increasing the search for the Examiner.

The requirement is still deemed proper and is therefore made FINAL.

3. Claims 1-35 and 46-58 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The amended independent claims in conjunction with the applicant's remarks renders the claims in condition for allowance. The prior art does not teach an inductive loop antenna and compensating element that maintains an operating frequency of the

loop antenna at or near an operating frequency of the RFID system in the presence of other RFID tags.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John A. Tweel, Jr. whose telephone number is 571 272 2969. The examiner can normally be reached on M-F 10-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Horabik can be reached on 571 272 3068. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
